indicated that the Examiner will reconsider whether Claims 54-57 have the same scope as Claims 53 and 54. The Examiner further indicated that if Claims 54-57 do have the same scope as Claims 53 and 54 that Claims 54-57 would be allowable unless a supplemental search revealed additional prior art that renders Claims 54-57 unpatentable.

As indicated, Applicants respectfully submit that Claims 54-57 have the same scope as Claims 53 and 54. For ease of comparison, the Applicants provide below a side-by-side comparison of the earlier presented claims and the amended claims.

Comparison of Claim 53 as Dependent on Claim 38 with New Claim 55

| Claim 53 as Dependent on Claim 38 | New Claim 55 |
|---|--|
| 38. An online product auction | 55. An online product auction |
| system comprising an auction center, said | system comprising an auction center, said |
| auction center includes a microprocessor | auction center includes a microprocessor |
| operably connected to a storage media, said | operably connected to a storage media said |

Comparison of Previous Claim 54 with Amended Claim 54

| Previous Claim 54 | Amended Claim 54 |
|--|--|
| 54. The online product auction | 54. The online product auction |
| system of Claim 53, further comprising a | system of Claim 55, 56, or 57, further |
| decrement amount, wherein the seller proxy | comprising a decrement amount, wherein the |
| module adjusts the current minimum bid | seller proxy module adjusts the current |
| downward by the decrement amount. | minimum bid downward by the decrement |
| | amount. |

As shown, the only textual difference betwen previous Claim 54 and amended Claim 54 is that whereas previous Claim 54 depends upon Claim 53, amended Claim 54 depends alternatively upon Claim 55, 56, or 57. However, this textual difference does not result in any difference in claim scope. As Applicants have shown, Claims 55, 56, and 57 together have the same scope as Claim 53. Accordingly, amended Claim 54 has the same scope as previous Claim 54.
